

# EcoLogo™ Program

## Request for Advisory Committee Members

### EcoLogo Assembling Advisory Committee In Development of New Standard for Toys

August 10, 2009

The EcoLogo Program is currently recruiting Advisory Committee members to support the development of the EcoLogo Toy Standard. The committee is comprised of individuals who are chosen specifically to represent user, producer,

general interest, academic and public health and safety groups. It is the aim of the EcoLogo Program to ensure equal representation of all interest groups so that no single classification can dominate the consensus-based decision-making process.

EcoLogo Advisory Committee members will participate in conference calls to share technical and market expertise for the purpose of guiding the development of the EcoLogo Toy Standard. Committee members will also provide input throughout the entire development process including comment and review of each draft standard, in addition to evaluating comments and opinions received from the broader stakeholder base.

Membership is voluntary and the commitment period will last approximately from September 2009 through July 2010 inclusive.

If you wish to apply to serve on the Advisory Committee in the development of the EcoLogo Toy Standard, please send a short bio and letter of interest to [Catherine Wilt](#) by September 17, 2009. Candidates selected to join the Advisory Committee will be contacted via email and have their names displayed on the EcoLogo website.

Additionally, if you have any questions pertaining directly to the EcoLogo standard development and

review process itself, please contact [Katherine Stewart](#).

Your time and assistance as we endeavour to establish an environmental leadership standard for toys is very greatly appreciated. Please also feel free to circulate this email to your colleagues should they potentially be interested in advisory committee membership.

Sincerely,

The EcoLogo Program
